Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this

Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1 – 22 are rejected under 35 U.S.C. 102(e) as being anticipated by Riley et al. (U.S. Patent No. 5856972).

Regarding claims 1, 9, 10, 11, 17, 21, 22, Riley et al. discloses the limitation of a method in a telecommunications system where a sending entity may send units to a first receiving entity (column 1, lines 14 – 15), the method comprising the steps of: sending a unit to the first receiving entity (column 1, lines 49 – 51); receiving no response from said first receiving entity (column 1, lines 26 – 28); and indicating a possible duplication of said unit when resending it, the possible duplication showing that said unit was resent because no response was received (column 1, lines 63 – 65; lines 26 – 28).

Regarding claims 2, 12, Riley et al. discloses the limitation of the method of claim, further comprising the step of also indicating the sending entity when indicating said possible duplication (column 1, lines 63 – 65).

Regarding claims 3, 13, Riley et al. discloses the limitation of the method of claim wherein the possible duplicate is indicated in the unit when resending said unit to the second receiving entity (Fig. 2, element 262; column 6, lines 43 – 50).

Regarding claims 4, 14, Riley et al. discloses the limitation of the method of claim, further comprising the steps of: noticing that the first receiving entity is operating (column 5, lines 66 – 67; column 6, lines 1 – 6); checking whether the first receiving entity received said unit (column 6, lines 38 – 39); and sending a release message to the second receiving entity when said unit was not received in the first receiving entity (column 11, lines 1 – 2); or sending a cancel message to the second receiving entity when said unit was received in the first receiving entity (column 10, lines 55 – 58).

Regarding claim 5, Riley et al. discloses the limitation of The method of claim, further comprising the steps of: noticing that the first receiving entity is operating (column 9, lines 7 – 11); checking whether the first receiving entity received said unit by resending said unit (column 9, lines 12 – 14); and sending a release message or a cancel message to the second receiving entity when said unit was not received in the first receiving entity (column 11, lines 1 – 2); or sending a cancel message to the second receiving entity when said unit was received in the first receiving entity (column 10, lines 55 – 58).

Regarding claims 6, 15, Riley et al. discloses the limitation of the method of claim, further comprising the steps of: receiving said unit in the second

Art Unit: 2664

receiving entity (Fig. 2, element 262); storing said unit in response to said indication (column 9, lines 7 – 11); and sending said unit in response to said release message from the second receiving entity towards its destiny (column 9, lines 62 – 67; column 10, lines 5 – 8); or deleting said unit in response to said cancel message (column 10, lines 57 – 58).

Regarding claims 7, 16, 18, 19, Riley et al. discloses the limitation of the method of claim, further comprising the steps of: receiving said unit in its end system (Fig. 7, column 9, lines 39 – 43); checking only in response to said indication whether the unit is a duplicate (column 9, lines 62 – 67).

Regarding claim 8, Riley et al. discloses the limitation of the method of claim, further comprising the step of indicating the possible duplication by adding said indication to the unit before resending it (column 9, lines 16 – 18; column 10, lines 5 – 8).

Regarding claim 20, Riley et al. discloses the limitation of the network node of claim 19 being further arranged to have a priority list of entities to which it may send units and to send the unit to the entity having the next lowest priority (column 7, lines 40 – 48; column 8, lines 48 – 51).

Response to Arguments

3. Applicant's arguments with respect to claims 1 – 22 have been fully considered but not persuasive. Examiner appreciates detailed description of prior art and the amended claims for further clarification.

Art Unit: 2664

Regarding claims 1, 9, 10, 11, 17, 21, 22, Applicant argues reference Riley et al. do not disclose claimed the possible duplication showing that said unit was resent because no response was received. Examiner contends reference Riley et al. disclose claimed the possible duplication showing that said unit was resent because no response was received (see column 1, lines 26 – 28).

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
